Petras Fisheries Pty Ltd was established in 1990 in Sydney, Australia. For many years and still today, Petras has been an importer and wholesaler of live tropical-freshwater and saltwater marine fish. With years of experience and knowledge in the Aquarium trade, Petras ventured into its own brand of Aquarium and pond products in 2002 called Aqua Nova.

Aqua Nova is a brand setup for the average aquarium hobbyist and pet lover, with products across the range and an ever growing range of products. In 2007, Aqua Nova moved into the European market and there it is also showing positive movement and growth with the average aquarium hobbyist.

To all Aqua Nova supports thank you for the support and wish you all the best in growing your business with ours in the future.

Best Regards Aqua Nova Team.

 2 x 1050l/h filter pump

**Flat Glass Aquarium (specially designed for marine (seawater) fish keeping)**

- Complete, with built in overflow, into a sump filter. (mini reef) (which is inside cabinet)
- Complete with filter wool
- The unit come with Aquarium, cabinet and filter in built into cabinet all accessories provided to start (pipes, hoses, fittings)
- Open top to allow heat to escape, and top brace around glass suitable for lighting attachment.
- Comes with ceramic shafted pump, suitable for salt water fish (ceramic shaft standard)
- Over flow pipes included and valves,
  - 1) 1 hole for water flowing down into filter unit.
  - 2) 1 hole for water that is pumped back up into the aquarium from the pump.
  - 3) 1 hole, if there is a problem with the down flow (for example blocked) there is a safety hole to let water flow down.
- Additional options (extra costs) Aqua Nova metal halides, Aqua Nova protein skimmers with pump. Aqua Nova heater.

**HY-680 (Capacity ~ 205 l)**  
Size: 720 x 590 x 1470 mm  
(including cabinet height)

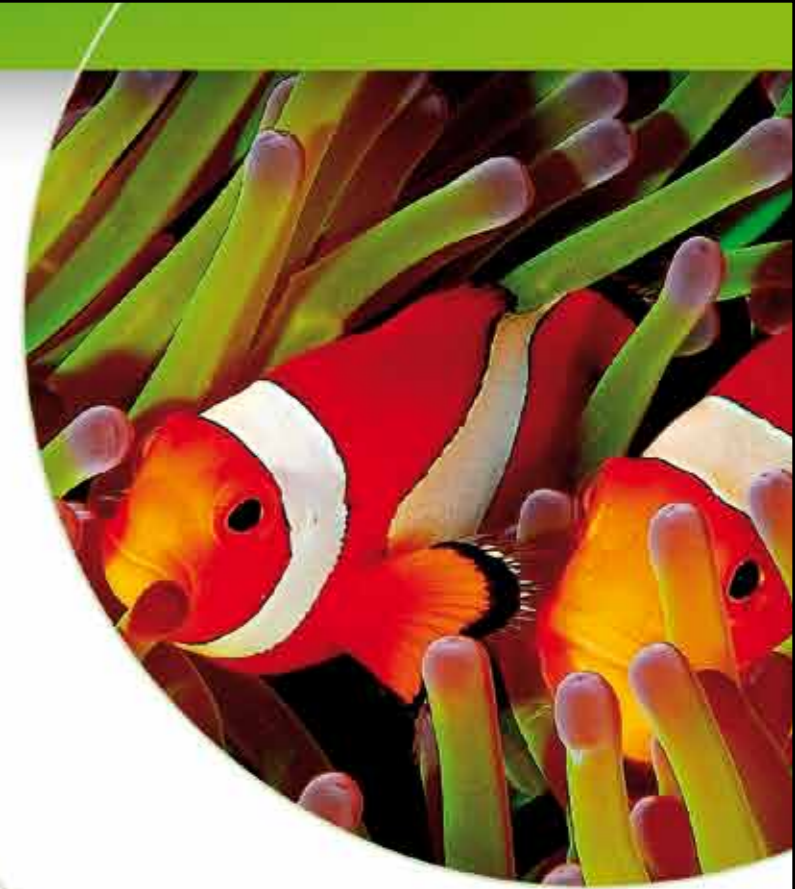

**HY-1000 (Capacity ~ 310 l)**  
Size: 1040 x 590 x 1505 mm  
(including cabinet height)

**HY-1300 (Capacity ~ 470 l)**  
Size: 1330 x 635 x 1540 mm  
(including cabinet height)

**HY-1500 (Capacity ~ 550 l)**  
Size: 1535 x 635 x 1560 mm  
(including cabinet height)

**The stylish new Aqua Nova NM-500 Marine tank & cabinet comes complete with**

- ~ 2 x 24w PL lighting (1/2 white, 1/2 blue)
- ~ 3 x blue LED lights (moonlight)
- ~ 5watt UV clarifier
- ~ Adjustable step design cover for hood
- ~ Individual waterproof switches
- ~ 2 x extraction fans to minimise heat
- ~ Undergravel extraction leading in to biological back filters which includes: thick black coarse sponge leading into filter box (noodles includes)
- ~ Then protein skimmer and finally UV sterilizer
- ~ 10watt power head with adjustable flow outlet
- ~ Flow rate of 700 L/H
- ~ Available in Black and Grey only
- ~ Marine Aquariums are sold as a complete unit
- ~ Tank Dimensions: 48cm(L)x45.5cm(W) x51cm(H). (mm Glass)
- ~ Top Frame Dimensions: 48cm(L)x45.5cm(W)x cm(H).

Aqua Nova Salt is a dynamic new formulation, specifically designed for the needs of the modern reef aquarium. It has been based on state of the art coral reef ecology research. All the materials are taken from natural and pure oceanic minerals, ensuring that the properties of tropic coral reef seawater can be accurately replicated. The salt contains abundant calcium, magnesium trace elements and active biological substances to achieve elevated levels of calcium and alkalinity reserve without resorting to harmful chelating agents. These components have proven to be effective in assuring the health and growth of all creatures in your aquariums.

- ~ Contains no nitrates or phosphate.
- ~ Dissolves easily and leaves no residue.

**Available sizes:**

- ~ 2 kg Colour Box for 60l
- ~ 4 kg Colour Box for 120l
- ~ 6 kg Bucket for 180l
- ~ 15 kg Bucket for 420l
- ~ 25 kg Bucket for 600l
- ~ 20 kg Bulk bag for 600l

Aqua Nova Aquarium Co2 kits are used to provide the aquarium plants with Co2. Plant needs Co2 to grow and thrive. The Co2 kits ensure that your plants receive that your plant receive the appropriate amount of Co2 to grow.

**NCo2-2 (set)**

- CO2 disposable cartridge 95g
- Bottle support
- Regulator
- Bubble counter
- Check valve
- Ceramic diffuser
- Suction cap

**NCo2-1**

- Non refillable Cylinder
- Volume: 135 ml
- Contents: 95 ±g CO2
- Bursting pressure: > 480 kg/cm2

**NCo2-3 / NCo2-4**

Multi-Direction reactor Diffusion of CO2 in water will achieve near to 100% within the shortest time, suitable for tank 60-90 cm or larger than 1,2 m.

**NCo2-5**

CO2 diffuser

**NCo2-6**

Bubble Counter

**NCo2-6**

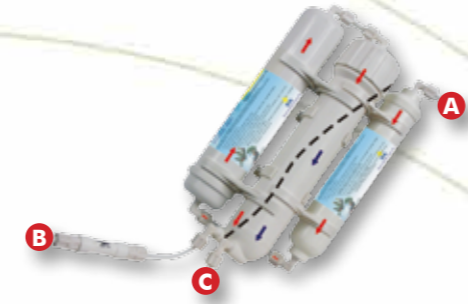

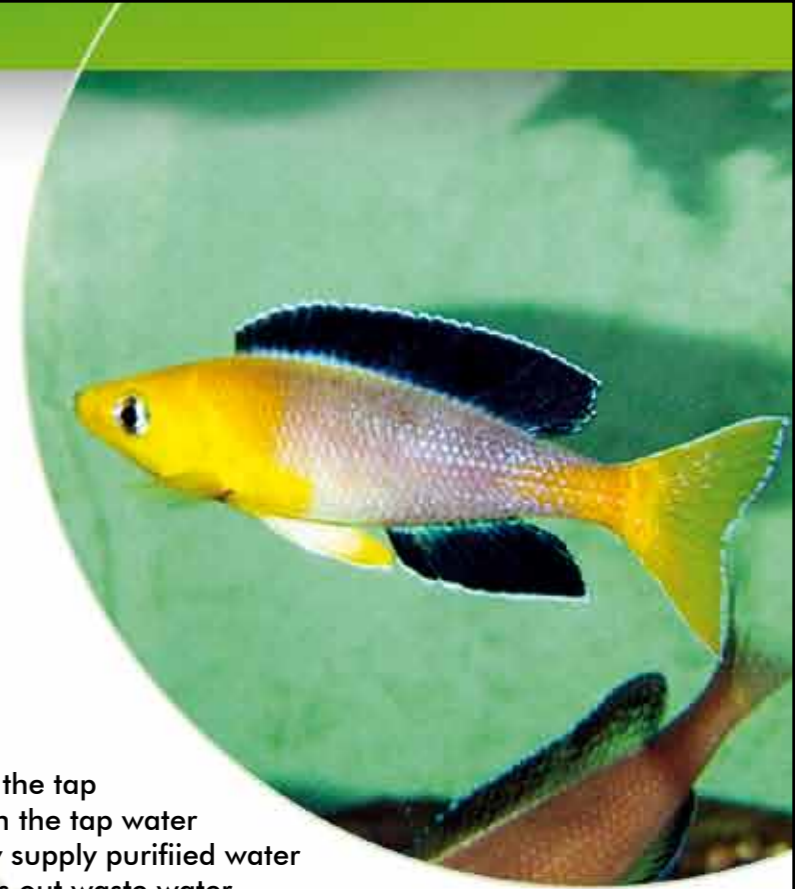

This connector sets is to let your bottle suitable for your setting

# COMPACT RO SYSTEM

Aqua Nova compact RO systems can produce high quality purified water by any kind of tap water so that you can create an ideal conditions to take care of even the most sensitive aquarium inhabitants. All substances that pollute the water or benefit the algae growth will be cleared off from your tap water. This item is suitable for both fresh and marine aquarium.

- Easy to use
- 1) Connect A to the tap
  - 2) Slowly turn on the tap water
  - 3) Tubing C now supply purified water
  - 4) Tubing B flows out waste water.

## RO-200

- 50l to 120l / day in normal condition
- With carbon filter and fine filter
- Ready to connect to tap water

## RO-300

- Create high quality purified water
- The water pressure of tap from 3 to 6 bar is enough to run the unit.

## ROC-001

Carbon filtering cartridge  
 Servicelife : 5600litres  
 Prolong the life of RO membrane  
 Remove odour, particles  
 Prevent particles damage to RO membrane

## ROC-002

PP Filtering Cartridge  
 Servicelife : 11000litres  
 Prolong the life of RO membrane  
 Reduce odour and filter particles, chlorine, pesticides and herbicides

## ROC-003

TFC Membrane  
 Servicelife 1 to 6 years depends on water quality  
 Purify water  
 High retention rate

### Aqua Nova Internal filter range.

#### Features

- Modern filter design to maximize space of filtration.
- Simple setup and operation.
- Easy to pull apart and clean. quick start.
- Very quiet motor operation and reliability.
- Rotation values for easy adjustment of direction of flow.
- In box full instructions and setup tips.
- Filters comes with course black sponge/s
- Filter comes with airline, valves and necessary fittings for setup. (each model different)

### N-TIMER

Aqua Nova digital timer.

Digital Timer 24 / 7, AM/PM or 24 hours Settings.

20 Programable times a day

Good for controlling electrical products such as light reflector, metal halids, and Co2 units.

**Aqua Nova Glass Heater range.**

**Features**

- Glass (Quartz) heater with thermostat.
- Fully submersible heater technology.
- Quartz material used so heater can be out of water and not crack whilst heated.
- Simple setup and operation, quick start.
- Easy temperature adjustment panel & knob with Aqua Nova precision setting.
- Light to indicate that heater thermostat is on or off, This heater has automatic thermostat to maintain permanent temperature of water.
- All models come with thick rubber suction, to stick onto Aquarium wall.
- Very reliable and long lasting with SAA, CE approvals.
- In box full instructions and setup tips.

### Aqua Nova T5 high output light unit

#### Features

- NLT5 - Twin globe high output (dual switches)
- NHT5- Quad globe high output (dual switches)

- Modern design and compact units.
- NLT5/NHT5 - range black colour unit.
- Simple setup, with optional use of 90 degree, adjustable feet to suit each unit
- Plastic splash proof cover to avoid water from splashing on globes.
- NLT5 range comes standard with 2 x white tube or 1 x white/plant tubes and 1 blue/marine tubes
- NHT5 range comes standard with 2 x white/plant tubes and 2 blue/marine tubes
- All units have stainless steel hanging brackets, just in case customer wants to hang unit over aquarium.
- Innovative design for the light reflecting to make the light lighter and strong

MODEL	UNIT LENGTH	WATT (LIGHT TUBE T5)	POWER (FREQUENCY)	VOLTAGE

NHT5-600	60cm - 2foot	4 x 24W	2 x WHITE / 2 x BLUE
NHT5-1000	90cm - 3foot	4 x 39W	2 x WHITE / 2 x BLUE
NHT5-1200	120cm - 4foot	4 x 54W	2 x WHITE / 2 x BLUE
NHT5-1500	150cm - 5foot	4 x 80W	2 x WHITE / 2 x BLUE

stainless steel hanging brackets

First generation aquarium Metal Halide Bulbs. This bulb is good choice for freshwater and plant aquarium. It gives a warmer white, full spectrum appearance to the aquarium.

This bulb appears to the naked eye as crisp ice white, clear artinic blue. The 14000K bulb combines the best characteristics of the 10000K and the 20000K bulbs and eliminates the need to add supplemental florescent or compact fluorescent actinic blue lighting.

The 20000K will bring out the fluorescence in fish and corals, giving the aquarium more of a black light effect. This bulb is a good chice for deep marine species.

MODEL	Watt (MH=HALIDE)	K (Kelvin)
NMH-150	1x150WMH	14000K
NMH-700	1x150WMH ~ 1x27W PL	14000K
NMH-1000	2x150WMH ~ 1x27W PL	14000K
NMH-1200	2x150WMH ~ 2x27W PL	14000K
NMH-1500	3x150WMH ~ 2x27W PL	14000K

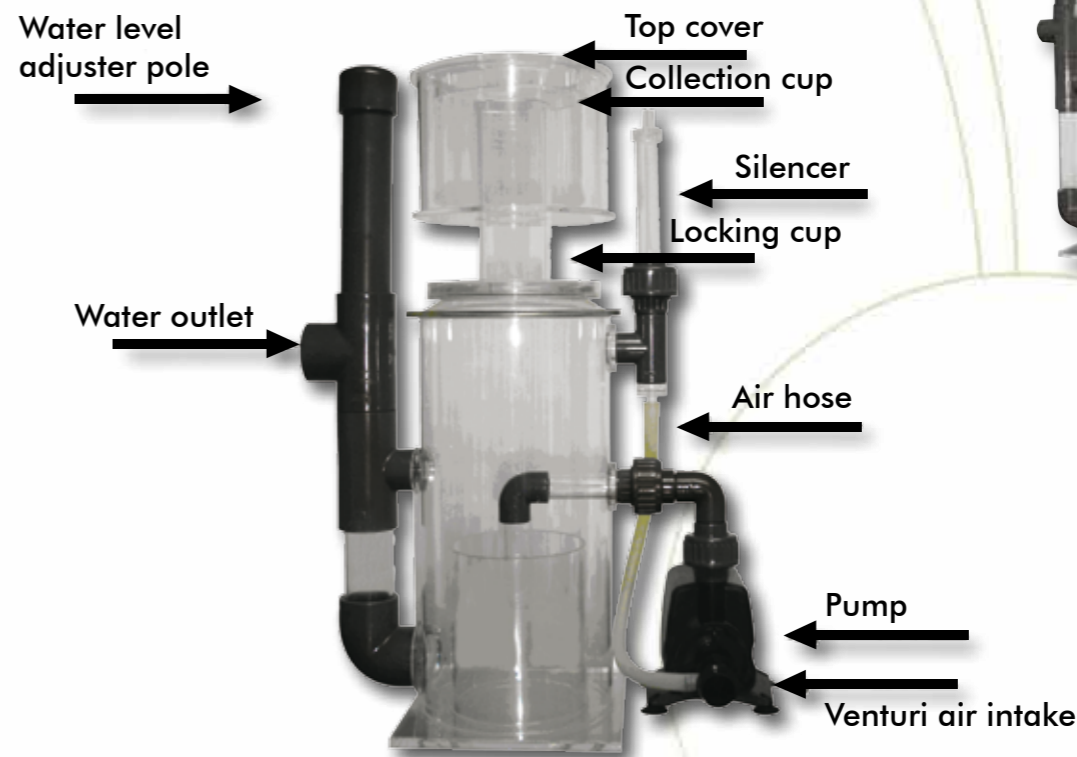

### Protein Skimmers

All of our skimmers are handcrafted using the latest tools and technology. It has been specifically designed for the aquarium use and tested by professionals.

### INTERNAL TYPE protein skimmer

The internal AQUA NOVA protein skimmers are high performance skimmers with design and production based upon high quality standard, maximum effect in spite of the very low height. This type of skimmer has to be placed inside the filtration plant. Very fine bubbles are obtained through the special pins and the air venturi intake in which works through the water flow. The skimmers are available in different sizes, suitable for all tanks.

### NP-SERIES

- NP-SERIES water pumps are suitable for use in ponds, water features and other forms of garden or even aquariums.
- Maximum output for these pumps is between 400l/h to 3000l/h .
- Easy to setup and maintain.
- Instructions and full product details included inside box.
- High quality material use to insulate the electrical componets.
- Ceramic shaft standard in all sizes to guarantee long life for the product.

MODEL	WATTS	Flow rate (l/h)	H.max (m)	Dimensions (mm)	Shaft
NP-400	6W	400	0,75	59*46*52	Ceramic
NP-1000	16W	1000	1,80	131*72*81	Ceramic
NP-1500	35W	1500	2,50	123*69*97	Ceramic
NP-2000	45W	2000	3,00	150*75*107	Ceramic
NP-3000	70W	3000	3,50	196*96*132	Ceramic

### NMP-SERIES

- High performance standard asynchronous motor with new design, and energy saving up to 50% than before.
- High pump heads and larger flow.
- Can pump dirt particles of size up to 6mm
- Adopt wearproof ceramic shaft which can be used in a longer time.
- Non-submersible installation possible.
- 10m cable
- New feature, connection to Pond Skimmer standard.

MODEL	WATTS	Flow rate (l/h)	H.max (m)	Dimensions (mm)	Shaft
NMP-4500	50W	4500	3,20	380*318.5*162.5	Ceramic
NMP-6000	60W	6000	3,60	380*318.5*162.5	Ceramic
NMP-8000	80W	8000	4,00	380*318.5*162.5	Ceramic
NMP-10000	105W	10000	4,50	380*318.5*162.5	Ceramic

### NFP-SERIES

- High performance standard asynchronous motor with new design, and energy saving up to 50% than before.
- High pump heads and larger flow.
- Can pump dirt particles of size up to 6mm
- Adopt wearproof ceramic shaft which can be used in a longer time.
- Non-submersible installation possible.
- 10m cable

MODEL	WATTS	Flow rate (l/h)	H.max (m)	Dimensions (mm)	Shaft
NFP-3000	35W	3000	2,50	270*160*171	Ceramic
NFP-4500	65W	4500	3,00	270*160*171	Ceramic
NFP-6000	95W	6000	3,50	270*160*171	Ceramic
NFP-8000	125W	8000	4,00	270*160*171	Ceramic
NFP-10000	135W	10000	4,50	270*160*171	Ceramic
NFP-12000	175W	12000	5,00	270*160*171	Ceramic

### NJP-SERIES

- High pump heads and larger flow.
- High performance, sturdy asynchronous motors.
- Can pump dirt particles of size up to 6mm
- Adopt wearproof ceramic shaft which can be used in a longer time.
- Non-submersible installation possible
- Pre-filter included
- 10m cable

MODEL	WATTS	Flow rate (l/h)	H.max (m)	Diamention(mm)	Shaft
NJP-15000	290	15000	6,5 m	246x150x195	Ceramic
NJP-20000	420	20000	7,5 m	246x150x195	Ceramic
NJP-25000	520	25000	8 m	246x150x195	Ceramic
NJP-30000	660	30000	8 m	246x150x195	Ceramic

**NUV-07 UV Clarifier 7w (for ponds)  
(includes bulb)**

- Volume of pond = 3.5m<sup>3</sup>
- Flow rate (L/H) = 1500
- UV light = 7waat
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)

**NUV-09 UV Clarifier 9w (for ponds)  
(includes bulb)**

- Volume of pond = 4.5m<sup>3</sup>
- Flow rate (L/H) = 3500
- UV light = 9waat
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)

**NUV-11 UV Clarifier 11w (for ponds)  
(includes bulb)**

- Volume of pond = 5.5m<sup>3</sup>
- Flow rate (L/H) = 7000
- UV light = 11waat
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)
- GE and CE approval for european market and euro plug
- Size : 310 (mm)Length

**NUV-18 UV Clarifier 18w (for ponds)  
(includes bulb)**

- Volume of pond = 8m<sup>3</sup>
- Flow rate (L/H) = 9000
- UV light = 18waat
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)
- GE and CE approval for european market and euro plug
- Size : 313 (mm)Length

**NUV-36 UV Clarifier 36w (for ponds)  
(includes bulb)**

- Volume of pond = 18m<sup>3</sup>
- Flow rate (L/H) = 15000
- UV light = 36waat
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)
- GE and CE approval for european market and euro plug
- Size : 503 (mm)Length

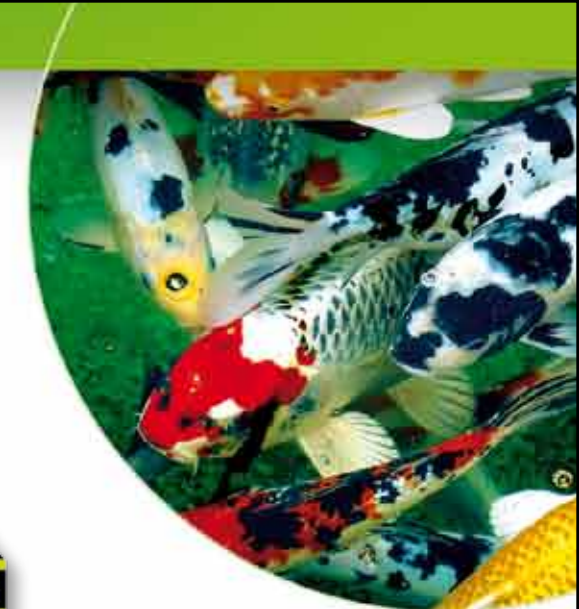

**NUV-55 UV Clarifier 55w (for ponds)  
(includes bulb)**

- Volume of pond = 25m<sup>3</sup>
- Flow rate (L/H) = 25000
- UV light = 55waat
- Outlet connection (mm) 20 / 25 / 32 / 40 (4 options)
- GE and CE approval for european market and euro plug
- Size : 623 (mm)Length

**Aqua Nova Pressure Filter with UV**

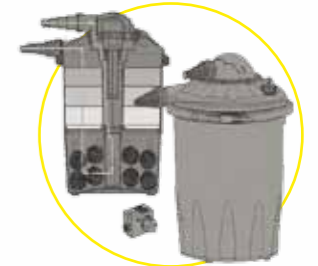

The filter unit is IP44 rated as weatherproof & can be buried in the garden up to the lid.

12VAC low voltage, including 12VA IP44 rated weatherproof transformer.

7.5m LV cable plus 1.8m mains flex on transformer.

Full 360 degree outlet head adjustment.

Cleaning indicator for foam sponge maintenance

Model	Filter volume	Pond size	UV Light (W)	Diamention (mm)	Inlet/Outlet (mm)
NPF-10	10L	4000L	7	278*378	15/20/25
NPF-20	20L	10000L	9	370*525	20/25/32/40

NUB-25000	25000L	36	788*530*510	20/25/32/40	70

**Aqua Nova Sponge filter**

**Aqua Nova Plastic plants (different types)**

- NP-6 (15cm high, with ceramic base)
- NP-12 (30cm high, with ceramic base)
- NP-20 (50cm high, with ceramic base)

**Aqua Nova Check valve**

Perfect for Co2 units, Air pumps, Air driven Protein skimmers

- NCV-1  
1 x Check valve in blister pack
- NCV-3  
3 x Check valve in blister pack

**Auto feeder**

- Aqua Nova auto feeder (batteries included)
- Suitable for food up to 3mm
- 5 feeding time every 24hours
- Child lock
- Suitable for fresh and salt water fish

**T-08**

- Aqua Nova Glass thermometer

**T-DIG**

- Aqua Nova Digital thermometer (includes suction cap)

**T-07**

- Aqua Nova Plastic thermometer (stick on glass)

**NTH**

- Aqua Nova precision yellow glass thermometer

### Fish Net, 3 wire Handle

Black course Nets, with black netting, Strong handle.

Sizes:

- 3" (7,5cm)
- 4" (10cm)
- 5" (12,5cm)
- 6" (18cm)
- 8" (24cm)
- 10" (30cm)

### Filter Sponge

These sponges are replacements and cut to size, and also for use in other filters and sumps besides Aqua Nova products.

(L) cm x (W) cm x (H) cm

#### NT-380 Sponge

26 x 12 x 2cm (White-fine)

#### NT-480 Sponge

36 x 12 x 2cm (White-fine)

#### NT 620, NT-1000, NT-1000T Sponge

43 x 12 x 2cm (White-fine)

#### R-Series and RH-Series Sponge (All sizes)

36 x 12 x 2cm (White-fine)

#### NCF-600

17 x 17 x 2cm (White-fine)  
17 x 17 x 2cm (Black-course)

#### NCF-1500

21 x 21 x 2cm (White-fine)  
21 x 21 x 3cm (Black-course)

#### NCF-2000

23 x 23 x 3cm (White-fine)  
23 x 23 x 3cm (Black-course)

### Air Line

N-WN2; Aqua Nova air line is a 2meter standard size (4mm) silicone tubing..

- TUB-100; 100m  
Coil of Silicon tubing
- TUB-200; 200m  
Coil of Silicon tubing

### Air Curtain

Aqua Nova Air curtain are made from good quality material and packed in blister packs.

Size:

- AC-8" (20cm)
- AC-12" (30cm)
- AC-18" (45cm)
- AC- 24" (60cm)
- AC-30" (75cm)
- AC-42" (105cm)
- AC-48" (120cm)

### Air Stones

Aqua Nova has several types of air stones.

- AS-1 (2.5cm x 1.5cm, Small-Cylinder)
- AS-2 (3cm diameter, Medium-Sphere)
- AS-3 (5cm x 2.5cm, Large-Cylinder)

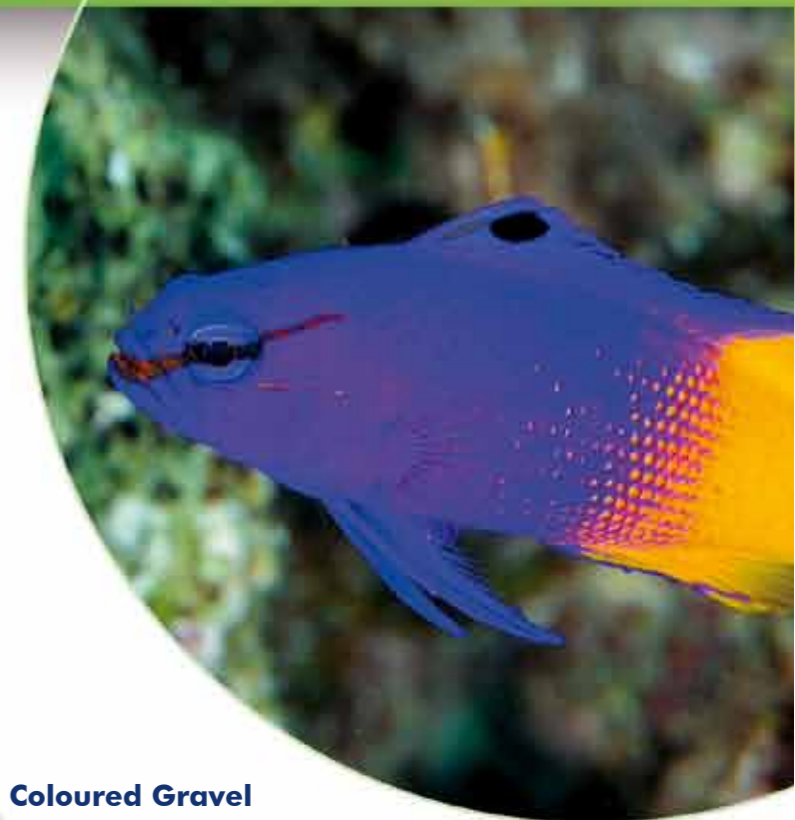

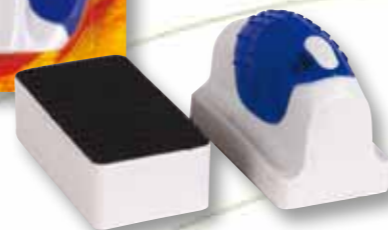

### NMC-Magnet cleaner series

Includes 3 sizes, suitable for different thicknesses of glass

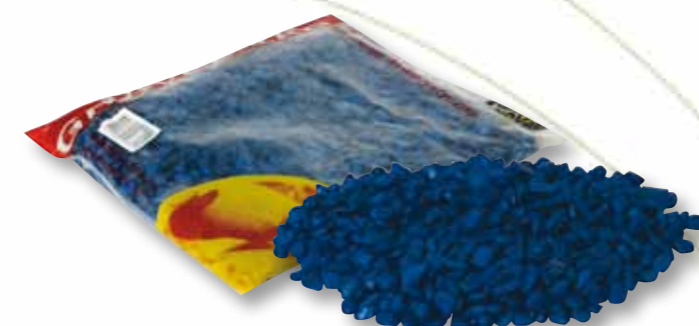

- NMC-S – Small (7cm x 3.5cm)
- NMC-M – Medium (9cm x 4.5cm)
- NMC-L – Large (11cm x 5.5cm)

### GC-Gravel Cleaner series (with adjustable value)

Includes 3 sizes, suitable for small, medium and large aquariums

- GC-301 – 10"/25cm (258mm Long Triangular Cleaner)
- GC-302 – 18"/45cm (458mm Long Triangular Cleaner)
- GC-303 – 24"/60cm (612mm Long Triangular Cleaner)

### Coloured Gravel

- Packed in 1kg bags, in Blue, Purple, Pink, Red
- Coral Sand
- Packed in 5kg bag (approximately cut to 2mm)

### Hydrometer

Aqua Nova Hydrometer. The device reads the salinity and specific gravity of the saltwater aquarium (from 1.008-1.030)

Aqua Nova offer more than 10 types of backgrounds in all standard sizes. More examples you can find at Aqua Nova websites.

Aqua Nova offer more than 100 types of beautiful aquarium ornaments. Include shipwreck, cave mountain, rock mountain. More photos you can also find at all aqua nova websites.

### Aqua Nova Activated carbon

This activated carbon is high performance filter material. It effectively removes residual medicines, chlorine, certain odours and also contaminants which are produced by the metabolism of organic substances.

Activated carbon should not be used while the Aquarium fish are being treated with any form of medication.

Aqua Nova activated carbon is packed in a sealed plastic bag to avoid unnecessary mess, and also comes already in a Aqua Nova fine black filter bag, this makes it easy to use in any filter. The net has a zipper so you can remove the amount in the net or reuse the bag again.

### Aqua Nova Ceramic rings

This activated carbon is high performance filter material. It effectively removes residual medicines, chlorine, certain odours and also contaminants which are produced by the metabolism of organic substances.

Activated carbon should not be used while the Aquarium fish are being treated with any form of medication.

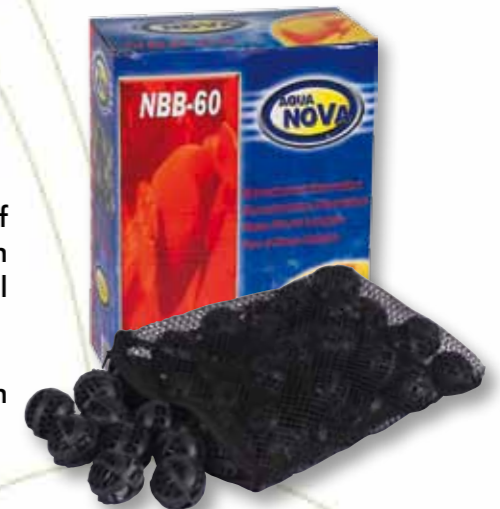

Aqua Nova activated carbon is packed in a sealed plastic bag to avoid unnecessary mess, and also comes already in a Aqua Nova fine black filter bag, this makes it easy to use in any filter. The net has a zipper so you can remove the amount in the net or reuse the bag again.

### Aqua Nova Bio Balls (60pcs—32mm diameter)

Aqua Nova Bio balls, are Biomechanical heavy duty form of filter media. These balls quench mud particles and protects main filter material against quick plugging. These balls are ideal for all filter sizes, great for External canister filter and sump filters.

Bio balls are an artificial housing for the growth of nitrification bacteria.

#### Aqua Nova Activated Carbon

(packed already in filter media fine netting, with easy zipper system)  
 NAC-0.5 = 500grams (0.5kg)  
 NAC-1 = 1000grams (1kg)  
 NAC-25 = 25 kg

#### Aqua Nova Ceramic Rings

(packed already in filter media fine netting, with easy zipper system)  
 NCR-0.5 = 500grams (0.5kg)  
 NCR-1 = 1000grams (1kg)  
 NCR-25 = 25 kg

#### Aqua Nova Bio Balls

(packed already in filter media fine netting, with easy zipper system)  
 NBB-60 = 60pieces x 32mm diameter  
 NBB-1000 = 1000pieces x 32mm diameter  
 NBB-2000 = 2000pieces x 32mm diameter
